

Resisting the trend toward cheaper production methods using foam panels and plastic trees, County saddles continue to be painstakingly handmade on our laminated beechwood trees, covered in the worlds finest leather, and flocked with pure wool to maximize your horses' comfort and fit. As one of the few saddlery companies in the world which actually make their own trees, County sets the industry standard in design for the rider and comfort for your horse.

Our traditional methods take longer and require a higher degree of craftsmanship, but once you sit in a County, we know you will agree that the results are clearly worth it. Although we custom make saddles for many of the worlds leading riders, our commitment to quality and detail is reflected in every saddle we make, including the one we have made for you.

## Warranty

Lifetime warranty, for original purchaser only, on all County® trees even against accidental damage; for parts only, labor and shipping not included. 5 year unconditional warranty on County trees under normal use and conditions as determined by manufacturer, parts and labor included, shipping not included. Unconditional two year warranty against defects in all materials and craftsmanship leading to failure of the product to perform. Additional 2 year warranty for defects in materials; parts only; labour and shipping not included. County has, at its sole discretion, the option to repair defects or to replace the saddle.

All warranties for new County saddles are calculated from the date the saddle was made as determined by the serial number stamped on the saddle.

All other claims must be reported within 15 days of receipt of product. Shipping for repairs, not included. To insure quality, all warranty repairs must be authorized by County Saddlery, Inc. and performed at our factory or by a saddlet/repair person approved by County Saddlery, Inc.

## Care and Cleaning

To avoid abrasion, wipe inside of boots before mounting.

Dampness, dirt and extreme dryness are leathers worst enemies. Clean saddles actually ride better and last longer. After each use, wipe all surfaces clean with a slightly dampened sponge and glycerine soap. Then wipe completely dry and store in a cool, dry place. Oil or leather conditioners should be used sparingly and only as needed, especially on seats and knee pads. Oil should be allowed to dry completely before another coat is added. Do not saturate leather with oil or any leather care product or you risk degradation of the leather.

***Warning: SADDLE BILLETS, LEATHERS AND ALL STITCHING SHOULD BE CHECKED WITH EVERY USE FOR FAULTS OR EXCESSIVE WEAR AND TEAR. THIS IS EXTREMELY IMPORTANT FOR THE SAFETY OF THE RIDER AND THE HORSE.***

***Horse activities are inherently dangerous. Neither County Saddllery nor the manufacturers, distributors and sellers of these products will accept any responsibilities for injury, death, or lameness resulting from the use or misuse of these products.***
